MobileMed Hosts Interns

Meet Audrey (left) and Monica (right), who are this year's Westmoreland interns. They split their time between the offices at 9309 and the clinics, where they assist with triage, clinic prep, and operate as clinic facilitators. We are happy to say that both report that they are learning a lot and are enjoying interning at MobileMed! Audrey recently graduated from Trinity Washington University with a Bachelor's degree in biochemistry, and is strongly considering going for a master's in public health after leaving MobileMed. Monica got her Bachelor's in biology, with a minor in studio arts, and is planning on going to medical school.
